If you are submitting via email, please remember to change the name of this document to include your name before you submit.

Instructions: The goal of this application process is to understand who you are as a young person and how UWC can help you become who you would like to be as an adult. The committee is trying to determine whether attending UWC will help you to succeed, based on who you are as a whole person: your values, vision, interests, accomplishments, capacities, choices, struggles, and engagement with the world around you. Therefore, share with us specific information that comes from your own experiences and perspectives. We discourage the use of AI, such as ChatGPT, because the answers it generates are generic and will not give us a consistent and true representation of who you are as a unique individual.

The courses are experiential and immersive, typically bringing together 30 - 60 young people from different backgrounds. As part of this application process you may choose to also be considered for a short course, in particular if you are unsuccessful with your application for a 2 year programme.
